

The Enterprise Toll-Free Replacement Transforming the Way You Connect with Customers!

Real-time, limitless, customer service connectivity from anywhere in the world.

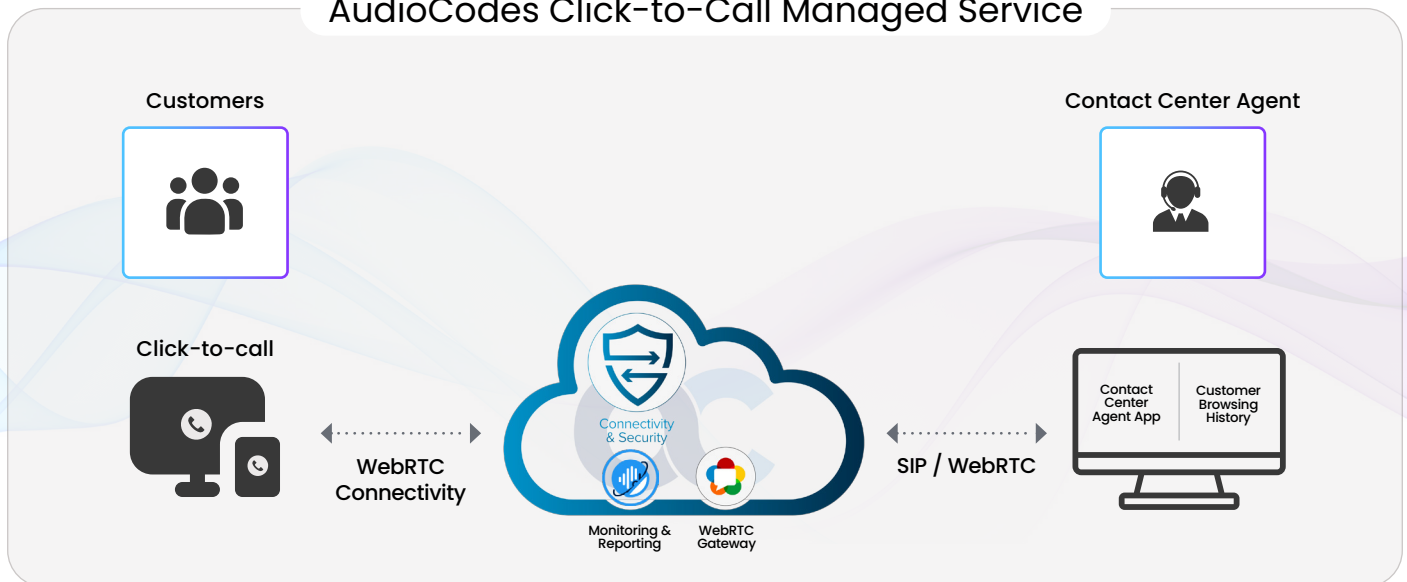

AudioCodes Next Generation Inbound Click-to-Call:

-  Reduce contact center operational costs
-  Replace complex international and domestic 1-800 infrastructure with simplified WebRTC telephony service
-  Delight customers and improve CX by eliminating long distance charges to access customer service from anywhere in the world
-  Convert more sales with live agent, customer service at the “right place” and the “right time”, via your digital assets
-  Introduce click to call button at key points in customer engagement, to avoid abandoned cart
-  Leverage & upsell, with real-time agent conversations, at online checkout

How it works?

- > Integrate Click-to-Call button wherever you like in the customer journey, for example, beside your toll-free numbers
- > Can connect to a voicebot or live agent
- > Call initiated from customers' browser or app
- > No software installation needed
- > Natively supports any mobile/desktop browser or app
- > High voice quality under any network conditions
- > Built-in security
- > Integration with any SIP-based contact center platforms

AudioCodes Click-to-Call Managed Service

About AudioCodes

AudioCodes, a leading provider of smart workplace communications services and software, tools and productivity solutions, enables organizations and service providers to design and operate all-IP voice networks, either in the cloud or on-premises.
